

# LOWERING SHACKLE

## INSTALLATION INSTRUCTIONS

Part # SH1092 2002-2003 Dodge 1500

Test result show varying amount of drop when using this shackle. The amount of drop on your vehicle may vary from 1/2" to 1-1/2". By installing this shackle you understand that the results may be a minimal amount of drop.

With your truck elevated on jack stands, place a hydraulic jack under the rear axle and raise it until the weight is removed from the leaf spring. Loosen and remove the shackle bolts, and remove the stock shackle. Install your new DJM SUSPENSION lowering shackle, tighten the bolts, do not over tighten (this will cause squeaks and binding) remove the jack and jack stands. Your ready to go!!!
